Contact Email:		Contact FAX:	
Purchase Order:	PURCHASE ORDER REQUIRED A Hard Copy of your Purchase Order Must Accompany Kit		

YOUR BILLING ADDRESS:		YOUR SHIPPING ADDRESS:	

Please list each kit being returned for repair/calibration separately.		
Kit Part Number	Serial Number	Description of Problem

Please note:

Tool kits will be physically evaluated once received at MCD.

Evaluation process can take up to 10 business days to complete.

Once evaluated, a quotation will be sent with price and lead time.

MCD will not begin any of the actual work without your approval and appropriate payment.

MCD does not calibrate/repair or coordinate the calibration/repair of Non DMC tools.

A Certificate of Calibration (without readings) for the kit will be included with your repair.

Optional: If you require a Certificate of Calibration (COFC) with readings for all applicable DMC Crimp Tools/Dies/Gages, the cost is 75.00€ per tool and will be included in the quotation if required.

COFC's with readings required: YES NO

Please be sure to complete this form in its entirety and send with your Purchase Order to:
